

Generator Model Number Codes

EXAMPLE: 362PSL1604

Three or Four Digit Frame Size 362	Three Letter Model Description			4 Digit Electrical No. 1604
	P	S	L	
201 (201 Frame Capacitor Pancake)	P (MagnaPLUS)	S (Single Bearing)	L (Low Voltage)	XXXX
25X (250 Frame Lima MAC)	R (Random-Wound MagnaMAX)	D (Double Bearing)	M (Medium Voltage)	
26X (260 Frame Lima MAC Reefer)	F (Form-Wound MagnaMAX)		S (Special Voltage (i.e 600 Volt))	
28X (280 Frame MagnaPLUS)	N (No Conduit Box)		N (Nissan Adapter)	
28X (280 Frame Lima MAC)	C (Made in China)		G (GM Adapter)	
29X (290 MagnaSmart)	M (Lima MAC)		A (Pancake SAE 5 Adaption)	
33X (330 Frame Pancake)	S (Lima SER)		B (Pancake SAE 4 Adaption)	
36X (360 Frame MagnaPLUS)	V (Variable Speed)		F (Fan Cooled)	
36X (360 Frame Lima SER)	F (Fixed Speed)		N (NO Cooling)	
36X (360 Frame Lima MAC)	A (Primeline)		W (Water Cooled)	
41X (410 MagnaSmart)			H (High Voltage)	
43X (430 Frame MagnaPLUS)				
43X (430 Frame MagnaMAX)				
44X (440 Frame Lima SER)				
44X (440 Frame Lima MAC)				
57X (570 Frame MagnaMAX)				
58X (580 Frame Lima MAC)				
68X (680 Frame Lima MAC)				
74X (740 Frame MagnaMAX)				
10X0 (1000 Frame MagnaPOWER)				

Note: The 4 Digit Electrical number may also incorporate other special features built into the generator along with the electrical design. These special features may include such things as special bearings, embedded temperature detectors, special insulation systems, etc.
